Synergy V

5 Device Remote Control (CBL, TV, VCR, DVD, AUDIO, TRUWAVE) Compliant

[Download Remote Manual >](#)
[Common Remote Keys >](#)

Select a Topic:

- [Program Your Own](#)
- [Batteries](#)
- [Troubleshooting](#)
- [Code Number Reset](#)
- [All Power Buttons](#)
- [Memory](#)
- [Button Using \[M\]](#)
- [Resetting \[M\]](#)
- [Volume Control](#)
- [Mode Lock](#)

Sync your devices with your remote control.

Select the device and brand you would like to sync to receive detailed programming instructions.

CABLE INSTRUCTIONS:

Code-Entry Programming

- Turn on all the electronic devices (TV, VCR, DVD, AUDIO) you want to program the remote to operate.
- Press [OK / SEL], then [MUTE] together until the mode buttons illuminate in slow-rotation (i.e. CBL, TV, VCR, DVD, AUD, CBL).
- To program your TV, locate the 3-digit code for your brand in the TV Setup Code list and enter it on the keypad of the remote control. Entry of the correct code will cause your TV to turn off. If multiple codes are listed for your brand, you may have to enter several different codes until your TV turns off.
 - As soon as you have entered a 3-digit code that turns your TV off, press [MUTE].
- If the TV turns back on, press [OK SEL] to lock in the code. The power / mode buttons will blink 3-times and go out.
 - Or -
 - If the TV does not turn back on, enter a different 3-digit setup code until your TV turns back on. Then press [OK / SEL] to lock in the code. The power / mode buttons will blink 3-times and go out.
- To program your VCR or DVD, refer to the VCR / DVD Setup Code lists and repeat steps 2 and 3 above.
- To program your AUDIO devices, refer to the AUDIO Setup Code list and repeat steps 2 and 3 above.

Point and Press Programming

This method allows you to program the remote control without using codes. The following instructions describe how to program your remote control using the [CH +] or [CH -] buttons (Power function during programming). When using this method, there are several important points to remember:

- The order in which you program your electronic devices is not important.
- There may be several codes that turn your electronic devices on / off (or perform other functions). Once you lock-in a code, be sure to check the available functions for that device (i.e. TV - Vol +, Mute, TV Input (TV / VCR button), VIDEO - Play, Stop, Rew., ... AUDIO - Volume / Mute) to see if they are operating.
- While the remote is searching for the correct setup code(s) for your electronic devices, it is possible that other (previously programmed) devices may turn on / off (or perform other functions). If this occurs, continue pressing the [CH +] or [CH -] buttons (or the buttons described in Section 18) until you find the correct code for the device you are programming.
- It may take several minutes for the remote to find the correct code that turns your device on / off (or performs another selected function). During this time, the power / mode buttons will illuminate in fast-rotation (i.e. CBL, TV, VCR, DVD, AUD, CBL).

Programming your electronic devices using the [CH +] or [CH -] buttons ([Power] function during programming):

- Turn on all the electronic devices (TV, VCR, DVD, AUDIO) you want to program the remote to operate.
- Press [OK / SEL], then [MUTE] together until the power / mode buttons illuminate in slow-rotation (i.e. CBL, TV, VCR, DVD, AUD, CBL).
- Press and hold the [CH +] button until one device turns off. While you are pressing the [CH +] button, the power / mode buttons will illuminate in fast-rotation. As soon as one device turns off, release the [CH +] button.
- Press [MUTE]. If the device that turned off:
 - Turns back on, press [OK / SEL] to lock in this code. The power / mode buttons will blink 3-times and go out.
 - Or -
 - Does not turn back on, press [CH -] one step at a time until that device turns back on. Each time you press the [CH -] button, the power / mode buttons will illuminate once in reverse fast-rotation (AUD, DVD, VCR, TV, CBL).

Once you have found a code that turns the device on / off, press [OK / SEL] to lock in this code. The power / mode buttons will blink 3-times and go out.

- Repeat steps 2 to 4 above for each of the remaining electronic devices you wish to program the remote to operate.

ALL POWER BUTTON

Once you have programmed each of your devices, press [All Power] to turn all of them on / off with a single button press. You can also program the [All Power] button to tune your TV to its correct output channel.

Programming the[All Power] Button

If you would like the [ALL] button to also tune your TV to its correct output channel (typically 3) follow these steps:

- Press [MODE], then [CBL] to select the remote's cable mode.
- Press [SETTINGS], then [ALL] together until the [TV] button illuminates.
- Press [3], then [X].
- Press [CH +] to store the TV channel. The [TV] button will blink 3 times and go out.

Your TV output channel may also be 2 or 4. If you are not sure, contact your cable operator.

Depending on your TV brand, the channel may have to be entered as [3], [32] or [303].

Using the [ALL] Button

When pressing the [ALL] button, be sure to keep the remote control aimed at your electronic devices until your electronic devices turn on or / off.

Resetting the [ALL] Button

- Press [MODE], then [CBL] to select the remote's cable mode.
- Press [SETTINGS], then [ALL] together until the [TV] button illuminates.
- Press [CH +]. The [TV] button will blink 3-times and go out.

 Copyright © 2004-2012 Time Warner Cable Inc. All rights reserved. Time Warner Cable and the Time Warner Cable logo are trademarks of Time Warner Inc. Used under license.

The screenshot shows the Time Warner Cable Support website. At the top, there's a header with the Time Warner Cable logo, a 'LOGIN' button, and a navigation menu. Below the header, the main content area is titled 'Support' and 'TV'. A dark blue banner reads 'Program Your Remote'. Below this, there's a link to 'Back to Program Your Remote'. A section for 'Synergy V' 5 Device Remote Control is shown, with a 'Download Remote Manual' button. A 'Select a Topic' section lists various topics: 'Program Your Own', 'Batteries', 'Troubleshooting', 'Code Number Read-Back', and 'All Power Button'. The 'All Power Button' topic is selected, leading to a page with instructions on programming the remote. The instructions include pressing [MODE], [CBL], [TV], and [CH +] buttons. A search bar is visible at the bottom of the page.

Synergy V: Program Your Own Mobile Flow

CABLE INSTRUCTIONS

Code-Entry Programming

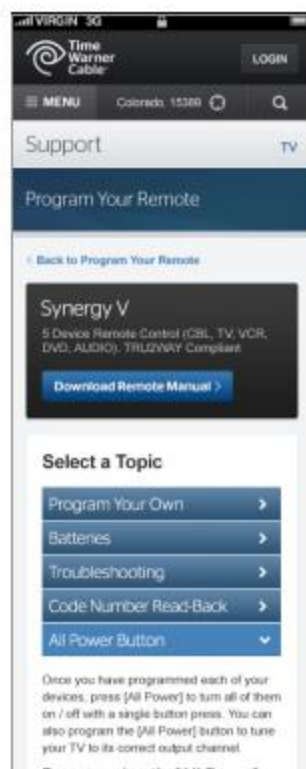

1. Turn on all the electronic devices (TV, VCR, DVD, AUDIO) you want to program the remote to operate.
2. Press [OK / SEL], then [MUTE] together until the mode buttons illuminate in slow-rotation (i.e. CBL, TV, VCR, DVD, AUD, CBL).
3. a. To program your TV, locate the 3-digit code for your brand in the TV Setup Code list and enter it on the keypad of the remote control. Entry of the correct code will cause your TV to turn off. If multiple codes are listed for your brand, you may have to enter several different codes until your TV turns off.
3. b. As soon as you have entered a 3-digit code that turns your TV off, press [MUTE].

1. If the TV turns back on, press [OK SEL] to lock in the code. The power / mode buttons will blink 3-times and go out.
- Or -
2. If the TV does not turn back on, enter a different 3-digit setup code until your TV turns back on. Then press [OK / SEL] to lock in the code. The power / mode buttons will blink 3-times and go out.
4. To program your VCR or DVD, refer to the VCR / DVD Setup Code list and repeat steps 2 and 3 above.
5. To program your AUDIO devices, refer to the AUDIO Setup Code list and repeat steps 2 and 3 above.

Point and Press Programming

This method allows you to program the remote control without using codes. The following instructions describe how to program your remote control using the [CH +] or [CH -] buttons (Power function during programming). When using this method, there are several important points to remember:

- The order in which you program your electronic devices is not important.
- There may be several codes that turn your electronic devices on / off (or perform other functions). Once you lock-in a code, be sure to check the available functions for that device (i.e. TV - Vol +/-, Mute, TV input (TV / VCR button), VIDEO - Play, Stop, Rew., AUDIO - Volume / Mute) to see if they are operating.
- While the remote is searching for the correct setup code(s) for your electronic devices, it is possible that other (previously programmed) devices may turn on / off (or perform other functions). If this occurs, continue pressing the [CH +] or [CH -] buttons (or the buttons described in Section 18) until you find the correct code for the device you are programming.
- It may take several minutes for the remote to find the correct code that turns

Once you have programmed each of your devices, press [All Power] to turn all of them on / off with a single button press. You can also program the [All Power] button to tune your TV to its correct output channel.

Programming the [All Power] Button

If you would like the [ALL] button to also tune your TV to its correct output channel (typically 3) follow these steps:

1. Press [MODE], then [CBL] to select the remote's cable mode.
2. Press [SETTINGS], then [ALL] together until the [TV] button illuminates.
3. Press [0], then [3].
4. Press [CH +] to store the TV channel. The [TV] button will blink 3-times and go out.

Your TV output channel may also be 2 or 4. If you are not sure, contact your cable operator.

Depending on your TV brand, the channel may have to be entered as [3], [03] or [003].

Using the [ALL] Button

When pressing the [ALL] button, be sure to keep the remote control aimed at your electronic devices until your electronic devices turn on / off.

Resetting the [ALL] Button

1. Press [MODE], then [CBL] to select the remote's cable mode.
2. Press [SETTINGS], then [ALL] together until the [TV] button illuminates.
3. Press [CH +]. The [TV] button will blink 3-times and go out.
